How to write emails and letters that sell

Grab their attention; this is usually the first thing the celebrity and agent will read. It's important to get them interested and get them out of their current environment or activity. For example:

Hi Sarah,

I am Elly Stancliffe, founder of The Handbook and I want to officially welcome you to my world. About 10 years ago, I started my first online business and this hobby became my obsession and business.

Relate it to them early on

I read your great interview in xxx on xxx and I've got a question for you

Who/position: Who are you? Introduce yourself very briefly. Show/tell why they should listen to you.

What: What do you have? Introduce your product or offer briefly. It's important not to just go on about the opportunity; show how you deliver value.

I've got this great face cream that's going to really radiate your skin

Why: Why do you need it? Explain the benefits of your offer and ideally relate it to them.

I read your interview in [xxx] magazine, where you said you have dry skin, or you don't wear make-up. If you're struggling with 'dry skin' then I would love you to try this because I think it will help.
